

SCALING BEYOND TERRAFORM:

Building Secure, AI-Ready Infrastructure on Cloud

A conversation on automation maturity, enterprise adoption, and building scalable infrastructure.

6.24.26

TODAY'S EXPERIENCE

WHAT TO EXPECT

- Eagle Rare bourbon tasting experience
- Interactive fireside discussion
- Live audience polls
- Audience Q&A
- Real-world customer examples

HOW TO PARTICIPATE

- Use the chat throughout the session
- Participate in polls
- Submit questions at any time
- Join the discussion

Toffee • Orange Peel • Honey • Leather • Oak • Cocoa

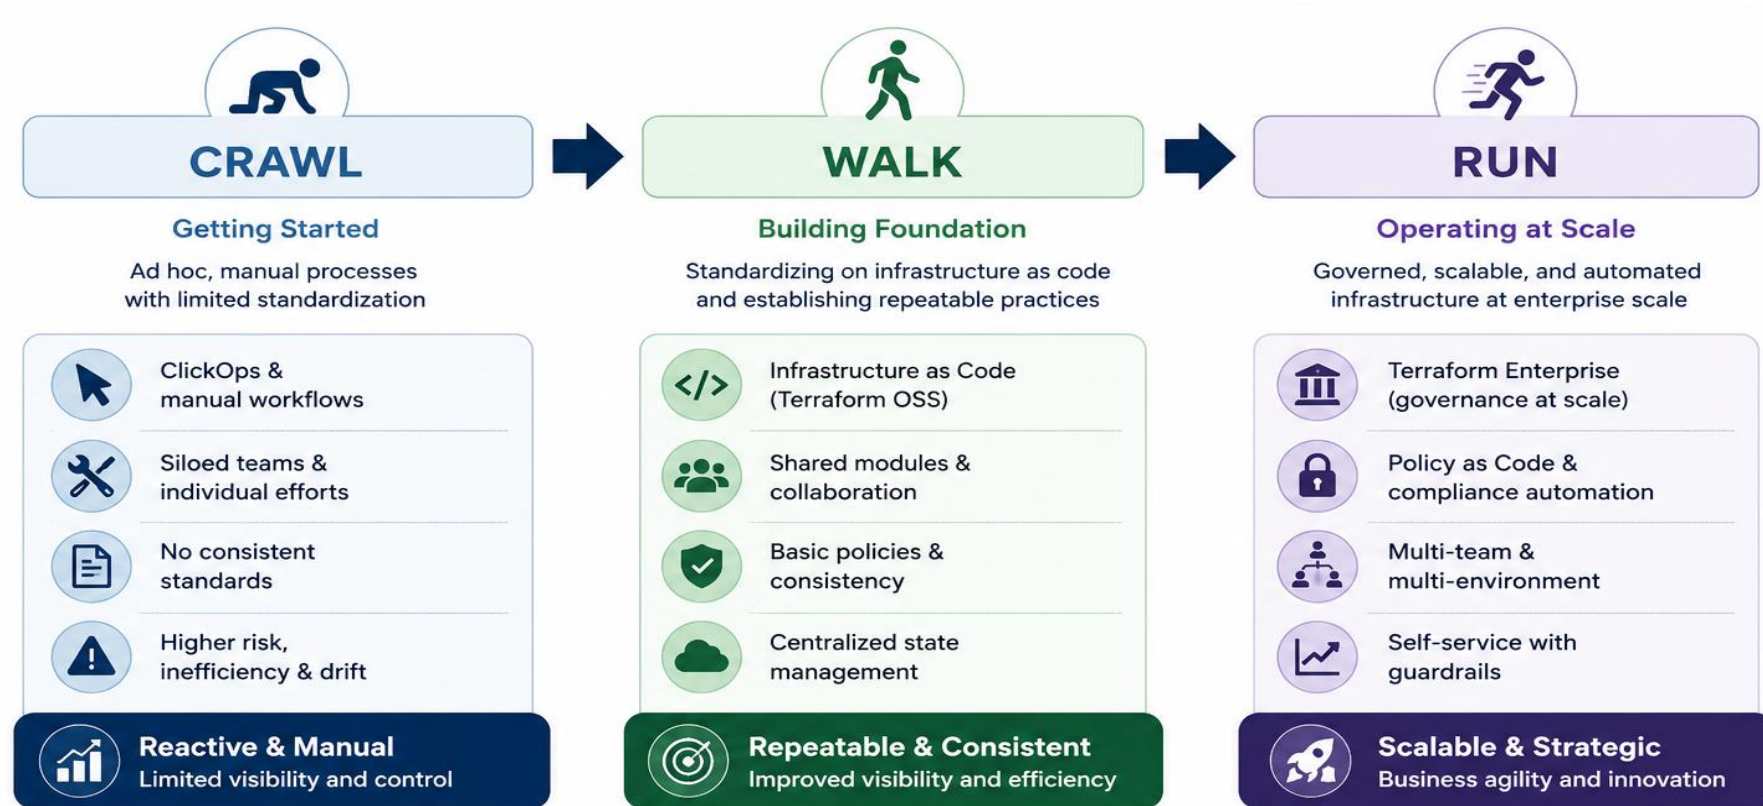

Infrastructure lifecycle management platform

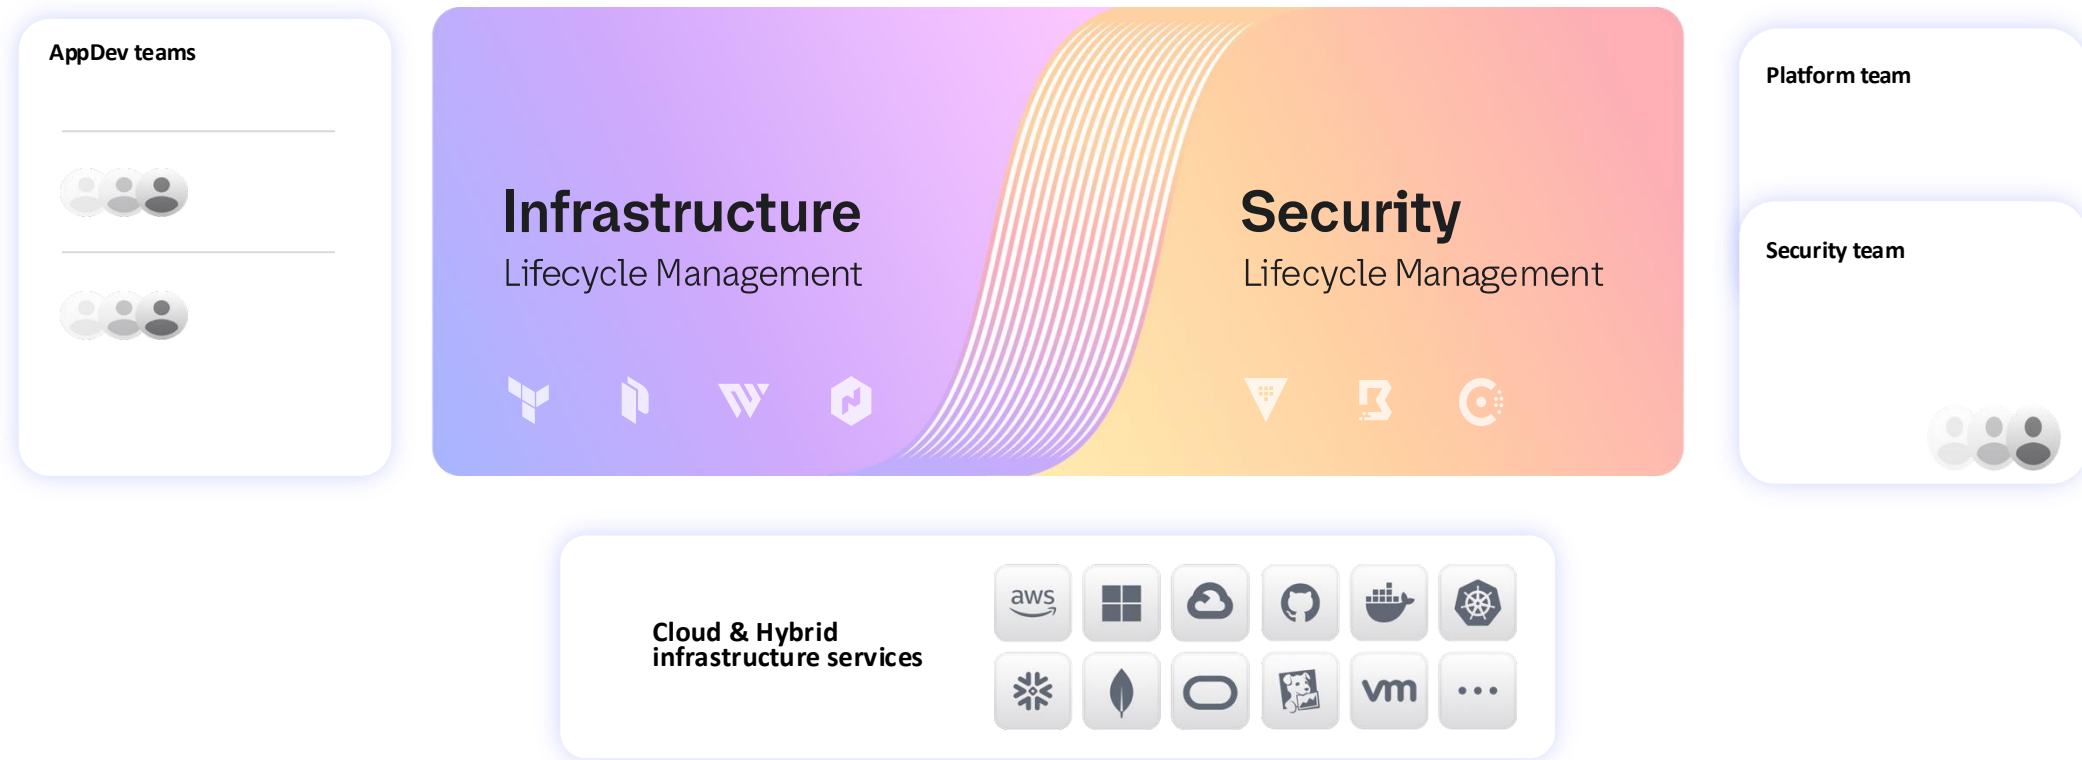

THE AUTOMATION MATURITY JOURNEY

From manual and siloed to scalable and strategic

HOW TO DO CLOUD RIGHT

Bring people and processes together through a unified platform

Infrastructure

Pre-Built Components

- Everything-as-Code
 - Infrastructure
 - Runtime
 - Policy
- Examples
 - Cloud accounts
 - Compute
 - Data
 - Networking
 - Applications

Security

Identity & Connectivity

- Discover
- Manage
- Audit / Report
- Identity Types
 - Non-Human
 - Agent
 - Dynamic
- Connect
- Highly Available and Scalable!

CUSTOMER EXAMPLES

Health Insurance • American Apparel • Student Loans Servicing

THE INFRASTRUCTURE CLOUD

The competitive edge of doing cloud right

SCALING BEYOND TERRAFORM STARTS WITH THE RIGHT FOUNDATION

LET'S CONTINUE THE CONVERSATION

IBMSalesLead@cleanslatetg.com

- Accelerate Infrastructure as Code adoption
- Build governance and policy guardrails at scale
- Standardize Terraform across teams and environments
- Enable secure, scalable automation practices
- Support enterprise Terraform and platform engineering initiatives
